

The Scientific Reports of the Kyoto Prefectural University

Agriculture No. 35

Contents

Agriculture

Studies on the yield stability viewed from the point of character manifestation variability of crops VI Intra-plant correlation between tiller emergence order and character manifestation ability in rice.....	H. NAKANISHI, S. MORI, S. YONEYAMA and M. MURAKAMI.....	1
Breeding and geneecological studies of genus <i>Perilla</i> I Classification of local varieties of perilla(<i>Perilla ocimoides</i> L.)by the application of the principal component analysis	S. NAKAMURA and M. MURAKAMI.....	7
Fundamental studies on propagation of peach(<i>Prunus persica</i> Sieb. et Zucc.)by stem cuttings VI Relationship between cuttings taken from different type or position of mother plant shoots and the rooting.....	H. GEMMA, M. CHISAKI, M. ISHIDA and Y. SOBAJIMA.....	17
Intracellular differentiations of <i>Phytophthora</i> oospore from maturation to germination A new aspect of the whereabouts of nuclei and other cell organelle	Y. MIYATA and Y. MATSUMURA.....	24
Surveies on the cracked egg.....	Y. KUNIMATSU.....	36

Forestry

Effects of shaking and staying of stems on growth of two alder trees	H. SAITO, T. KAWADA and M. TAKEOKA.....	41
Applicability of the RICHARDS' growth function to analysis of growth of tree	S. OSUMI and Y. ISHIKAWA.....	49
Dimensional stability of wood by polyethylene glycol treatment.....	M. FUKUYAMA and H. URAKAMI.....	77
On the soil production on the mountain slope III Estimation of sediment yield due to the enlargement of the landslide	H. HIURA, K. MIZUHARA and K. OHTE.....	86
Analysis of internal stress in laminated wood resulting from moisture content change	J. MUKUDAI.....	100
The evaluation of vegetative restoration in the hill-side planting worked area by Landsat MSS data.....	T. SENOO, E. IWANAMI, K. OHTE and S. KOBASHI.....	110

Agricultural Chemistry

Vanadium content and distribution in the soils.....	H. YAMADA and T. HATTORI.....	124
Effect of chlrella on spontaneously hypertensive rat	M. KANAMORI, M. SHIMA, H. NOMURA and H. DOI.....	133
Detection of antihypertensive glycoprotein from chlrella	H. DOI, M. SHIMA, Y. KAWABATA, M. YORITA and M. KANAMORI.....	138
Study on polysaccharide by the fluorescence method IV Fluorescence properties of fluorescein conjugates of amylose and dextran as a function of the degree of substitution with dye.....	S. KITAMURA and T. KUGE.....	144
Correction of instrumental spreading for GPC chromatograms by Hamielec method	T. OKAMOTO, S. KITAMURA and T. KUGE.....	152
